FOUNDERS AVIATION: COMPREHENSIVE AVIATION SERVICES

Public and private companies as well as individuals are realizing the value and efficiency of corporate aviation to accomplish important objectives, enhance productivity, and maximize owner return. Business aviation can be the key to a more efficient, profitable business plan.

KNOWLEDGE AND EXPERIENCE

Setting the standard for turnkey aviation management, Founders Aviation is operated by highly qualified executives and staff with decades of expertise from Corporate, Military, Commercial, and Instructor backgrounds. Combining comprehensive experience in aviation with business management and financial expertise enables us to deliver the most well-rounded approach, specific to the requirements of each client we serve. Our clients range from Fortune 200 corporations to small businesses and individuals.

CUSTOMIZED, TURNKEY SERVICES

The initial consultation process is designed to discover and develop your requirements and applications. From acquisition to daily operations and maintenance; Founders Aviation takes ownership of the entire process, **making your objectives our priority**. We work to develop an aviation program for your needs, make the most efficient use of assets, and realize the greatest benefit. Our services are designed to address each element of your aviation requirements under a single operation- never leaving you exposed to unmitigated risk.

“Founders Aviation allows executives the chance to focus on their business or personal objectives, and leave the aviation to us, confident that the solutions we provide are simply the best in class.”
- Keith Harrison, CEO

COST TRANSPARENCY

Working under a fully disclosed cost structure, with no hidden fees, markups, or surcharges, Founders Aviation operates with the highest standards. We don’t make promises we can’t keep, and plan your annual budget based upon realistic costs of ownership unique to your user profile. You see every dollar spent, and any savings realized through effective, efficient operation pass directly back to you.

CORPORATE AVIATION PARTNERS

Founders Aviation has assembled a network of industry-leading providers that translate value-added services to each client. We constantly strive to find innovative, sustainable improvements with service provider and industry evaluation, backed by our professional expertise. Our objective is to ensure client resources are used both effectively and efficiently at all times.

Keith Harrison, CEO, Founders Aviation

TYPES OF OWNERSHIP

WHOLE OWNERSHIP: Provides flexibility and rapid response at all times to meet specific travel needs of each client, through ownership and use of one (or more) aircraft by a single company or individual.

SHARED OWNERSHIP: Locally based with a maximum of three co-owners, providing the benefits of whole ownership while sharing fixed costs among co-owners.

BLOCK CHARTER: Affords clients the opportunity to access the Founders Aviation fleet with reliable results.

HOW FOUNDERS AVIATION WORKS

1. Allow us to determine what works best for you.

Working one-on-one with Founders Aviation executives, we develop your custom aviation profile. Founders Aviation analyzes your anticipated travel requirements and ownership objectives, and creates an acquisition and sustainment strategy that makes sense.

2. Our relationships ensure a timely acquisition.

Our trusted network of manufacturers and brokers ensure that we have the capability to meet your diverse needs during the acquisition period. These relationships give Founders Aviation the ability to acquire your aircraft with the security and confidence you deserve, with a timeline that fits your requirement.

3. Feel safe in the air.

Award-winning safety management systems are in place to coordinate all pilot and maintenance events. Our operations, maintenance, and support staff professionals are “on point” to keep your aircraft at its peak performance, serving your needs with the highest level of safety.

OUR CLIENTS

CORPORATIONS CURRENTLY WITHOUT DEDICATED AVIATION

Founders Aviation synergizes business objectives with travel requirements through in-depth analysis, based upon client-specific metrics for large and small companies alike. Founders Aviation’s comprehensive solutions conquer today’s problems and sustain forecasted growth.

The benefits of having a dedicated corporate aviation program are significant: increased employee productivity, unrealized sales growth, securing a competitive advantage, operational efficiencies, industrial security, offsetting corporate expenses, and improved risk management. Additionally, we identify and develop specific opportunities for your company to realize the maximum benefits of a corporate aviation program using potential charitable or other avenues available.

INDIVIDUALS EXPLORING OWNERSHIP OPTIONS

Founders Aviation’s programs appeal to high net worth individuals interested in recapturing the value of their time and enhancing quality of life.

Our comprehensive analysis presents individuals with the opportunity to explore their return on investment in a personal aviation program.

ESTABLISHED AVIATION APPLICATIONS

An appropriate client - aircraft - service program match, state of the art technology, acquisition and sustainment, all-encompassing safety culture, resource stewardship, and motivation to perform above and beyond: Does this describe your current system? If not, Founders Aviation will show you the way.

Most legacy programs were initiated with confused priorities, underperforming aircraft, unskilled leadership, and don’t meet the objectives that were originally intended. Similarly, priorities may have shifted over time, resulting in a program that no longer fits the requirement.

EVALUATE YOUR OPTIONS

Whether you’re ready to purchase an aircraft, develop a charter plan, get the most of your current investment, or simply to explore your options, Founders Aviation is ready to get you there.
